

BD Life Sciences – Biosciences

Flow Cytometry Innovations Tour 2017

Innovations in Flow Cytometry:
Enabling Data Standardization and simplifying Compensation

Live Presentation of our new BD FACSLyric™ Flow Cytometer (CE-IVD)

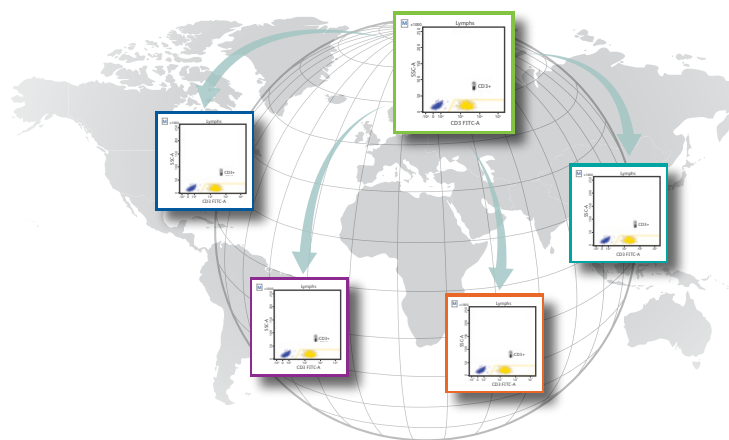

Join a live presentation of our new high performance BD FACSLyric™ system for clinical research and routine clinical analysis during our Flow Cytometry Innovations Tour from February to May 2017 in your region.

Get to know this high-performance, highly sensitive flow cytometer enabling:

- Highly comparable data over time, instruments and locations
- Excellent detection of dim or rare populations
- Extremely simplified compensation

A survey with over 25 labs in university clinics and private labs in the German speaking region showed that accurate data and easier compensation are of high relevance in flow cytometry. A high reproducibility of data over time is important for monitoring of patients.

Standardization between instruments enables improvements in daily workflow, accreditation processes and clinical trials.

Program

14:00 – 14:15 hrs

Welcome and Introduction

14:15 – 15:15 hrs

The BD FACSLyric System

Enabling Standardization and simplifying Compensation

New sensitive fluorochromes for more flexibility

15:15 – 16:15 hrs

Live Presentation

Overview of workflow and software

Electronic transfer of assays between instruments

Support in regulated environment

(User management, Audit Trail, e Signature)

from 16:15 hrs

Snack

Possibility for further discussions

Locations and Dates

February 22, 2017

Munich *

March 8, 2017

Berlin *

March 22, 2017

Heidelberg *

March 29, 2017

Vienna *

April 26, 2017

Basel **

May 3, 2017

Zurich **

May 17, 2017

Hannover *

in German *

in English **

We are looking forward to welcome you at one of the events! The event is free of charge.

Please register using the registration form.

The participant number is limited therefore we recommend a timely registration.

Do you have any questions? Please do not hesitate to contact us.

Furthermore we present the BD FACSLyric™ System at the IGLD 2017 in Düsseldorf on 02.-04.03.2017 and at the EuroFlow™ Educational Workshop in Kiel on 17.-18.03.2017.

Germany: BD · Tullastr. 8 – 12 · 69126 Heidelberg

Austria: BD · Rinnböckstr. 3 · 1030 Wien

Switzerland: BD · Binningerstrasse 94 · 4123 Allschwil
