Dear <FirstName>,

Your <plan name> plan helps you pay lower prices for your medicines. Your plan has contracted with certain pharmacies for in-network coverage. When you use these pharmacies, you often have lower out-of-pocket costs.

Beginning January 1, 2017, <Pharmacy Name> will no longer be a part of your <Plan Name> pharmacy network. *This includes all CVS-owned pharmacies and CVS pharmacies in Target stores.*

What this means for you

To pay less for your medicines or to maximize your pharmacy benefits, if you use CVS as your pharmacy you will need to switch to a new in-network pharmacy beginning **January 1, 2017**.

It's easy to switch your prescriptions

Simply choose a new in-network pharmacy and transfer your prescriptions by doing one of the following:

1. Take your prescription bottle/bag to your new pharmacy. They will contact your current pharmacy to transfer your prescription.
2. Call your new pharmacy and ask them to contact your current pharmacy for your prescription information.
3. Ask your doctor to call your new pharmacy with your prescription information.

Here are 3 in-network pharmacies near you:

<pharmacy name 1>, <<pharmacy address 1>, <phone number 1>

<pharmacy name 2>, <<pharmacy address 2>, <phone number 2>

<pharmacy name 3>, <<pharmacy address 3>, <phone number 3>
